What is **Emigrate2.co.uk**?

Emigrate2 is the leading independent source of emigration information in the UK. Since the site's launch in 2007 we have helped thousands of people to emigrate by providing useful, up-to-date information and guidance on all aspects of living and working overseas.

Our aim is to provide information that will help you on your emigration journey, from those who are just getting ideas to those who have a visa and are ready to make their move overseas. Emigrating can be a daunting process as well as a lot of hard work and we believe having the right tools and information to hand in an easy to understand format will help make the process as smooth and stress-free as possible.

Working in conjunction with experts within the emigration industry as well as migrants who are now living the dream in their new home country, we aim to help our visitors through every stage of the process, from planning their migration to settling in their new home country.
